Summer 2017 – Environmental Careers Pathway!

June 26 – 29 – Class at Fast Track (Edison High School)

June 30 – July 8 – Free overnight trip to Wolf Ridge

July 10 – 14 – Training week – paid by Step Up! We will get trained in the use of ArcGIS, do a stream study of Minnehaha Creek, canoe with Wilderness Inquiry, tour a composting facility and attend a Saints game to encourage recycling/composting.

July 17 – 20**

July 24 – 27**

July 31 – August 3**

August 7-10**

August 14-17 **

**** Minneapolis Park and Recreation – Internship with either Metro Blooms or applying the environmental science skills that you have learned. 30 hours per week, paid by Step Up.**

Benefits to you: high school credit, paid internship (possibility of earning up to \$1600), experience working to improve your community, great adventure!

****You MUST commit to the entire experience in order to participate. Anyone who can't attend the Wolf Ridge trip will not be eligible. You also have to be 14 by June 1, and eligible to work in the US, in order to be paid by Step Up. You will only be paid for the hours you work.**

THERE ARE 5 OPENINGS! Tell your counselor that you are interested.

For more information, please contact:

Suzanne Kobilka, Fast Track teacher – suzanne.kobilka@mpls.k12.mn.us

Summer Enrichment Opportunities

Northeast Middle School will be having GEMS/GISE Summer STEM Academy.

- **Amazing Structures: Bridges & Towers** - Students will investigate tower and bridge designs, the forces that act on them, and the materials that can withstand those forces.
- **Cooking by Design** - This design-based integrated STEM – Nutrition class engages students in using a variety of creativity and idea generation tools.
- **Drumline or Guitar** -Develop performance skills, rehearse music and choreography, and create a composition and arrangement.
- **Engineering the Ride** - Explore the mechanics of the standard road bike while riding through the urban parks and streets of Minneapolis.
- **Expedition Minneapolis** - Engage in a wide variety of environmental field experiences through the use of scientific inquiry, while learning to use the tools of a naturalist.
- **Explore Robotics**- Students will utilize their prototypes and programming skills to solve design challenges using the LEGO Mindstorms Robotic System.
- **STEM Gear by Style Engineers** - Activities are designed to explore the science and technology of fashion.
- **Game On! Recreational Sports & Activities** - Learn and practice the skills of Lacrosse, Soccer, Volleyball and Rugby.
- **SOAR** - The sky is the limit in this course that focuses on aerospace engineering.
- **Theatre or Dance** - Design and perform while learning the technical elements of theatre or dance.
- **Design Art Meets Engineering** - Students will work on various Art Engineering Design Challenges.
- **Tech 4 Boyz / Tech 4 Girlz** - Studio production, graphics, green screen production, and more.
- **Urban Boatbuilding & Exploration** - Design and construct wooden boats, canoe waterways and improve swimming

4-H Campus Immersion Experience

July 24-27, 2017

YOUTH IN GRADES 6-10

Each year MPS Community Ed hosts Youth Service Day where students engage in advocacy and service-learning activities to express their opinions around environmental protection, food and housing insecurity, and racial equity, especially in education. Each MPS afterschool program had the opportunity for students to create a logo for this year's event, and winner was decided by the HYPE council. We are happy to announce the winner of the Logo design contest is our very own Glendy Osorio. She submitted a unique design that we will be using on the t-shirts and other materials at Youth Service Day May 18th.
